

The University of Kansas Alcohol and Drug Policies

The consumption of alcoholic liquor on the campus of the University of Kansas is prohibited by State statute except under special circumstances provided by law. Any alcoholic liquor service must conform to the policies of the Kansas Board of Regents and the University of Kansas and must be approved by the Chancellor. Information on *Alcoholic Liquor at University Events* is available from the Office of the Provost and Executive Vice Chancellor, 250 Strong Hall, or online at www.policy.ku.edu, click on Operational, then on Facilities.

Prevention of Illegal Drug and Alcohol Use on Campus and in the Workplace, and Conditions of Employment Policy

The University of Kansas prohibits the unlawful possession, use, manufacture, or distribution of alcohol or drugs by students or by employees on its property or as part of its activities. The University is committed to a program to prevent the illegal or irresponsible use of drugs, alcohol and cereal malt beverage by students and employees. Any student or employee found to be using, possessing, manufacturing, or distributing controlled substances or alcohol in violation of the law or University policy on University property or at University events shall be subject to disciplinary action in accordance with policies of the State of Kansas, the Board of Regents and the University of Kansas.

For employees, the University will take appropriate personnel action for such infractions, up to and including termination. See *Substance Abuse* at www.policy.ku.edu. Students who violate this policy will be subject to sanctions, which include completion of an approved drug or alcohol rehabilitation program, disciplinary warning, probation, suspension and expulsion from the University.

As a condition of employment, all employees of the University of Kansas shall abide by the terms of this policy statement and will notify the University of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction. The University will, in turn, notify as appropriate, the applicable federal agency of the conviction within 10 days of receipt of notification of conviction. The University will initiate personnel action, up to and including termination, within 30 days of receiving notice of such conviction. Employees may also be required to satisfactorily participate, at their own expense, in a drug abuse assistance or rehabilitation program before being allowed to return to work. For purposes of this policy, "conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the federal or state criminal drug statutes.

The complete policy is available in the KU Policy Library at: <https://documents.ku.edu/policies/hreo/alcoholanddrug.htm>.

Mandatory Alcohol Education Policy

To ensure that University of Kansas students are aware of the potentially harmful effects of alcohol and to provide students with an opportunity to identify high-risk behaviors, the University requires newly enrolled, degree-seeking students under the age of 22 to complete the AlcoholEdu program.

The complete Mandatory Alcohol Education Policy is available online at www.alcohol.ku.edu/policies.

Amnesty Policy

University of Kansas students seeking immediate medical assistance on behalf of persons experiencing alcohol-related emergencies will not be sanctioned for violations of University and/or Department of Student Housing alcohol-related policies. This program is designed to promote the health and safety of our community. Any student who abuses this policy can be subject to disciplinary action for impeding the orderly process of the University.

The Amnesty Policy is available online at: www.alcohol.ku.edu/policies.

Parental Notification Policy

Parents and/or legal guardians of students under the age of 21 will be notified after the first known violation of university policy or state law regarding drugs, or after the first known violation involving alcohol that endangered the health or welfare of the student and/or another person. Notification will also be given following a known drug or alcohol violation that results in the cancellation of a student's housing contract, or if the student has been referred for alcohol assessment. Notification for all other offenses involving alcohol will occur after the second known violation.

The complete Parental Notification Policy is available online at: www.alcohol.ku.edu/policies.

Health Risks - Alcohol/Drugs

Alcoholism is the number one drug problem in the United States and takes a toll on personal lives by affecting employment, finances, health, social relationships and families. College campuses are not exempt. Accidents and injuries are more likely to occur on University property or at University activities when alcohol or other drugs are used.

The abuse of alcohol and other drugs may lead to serious consequences. These may include the loss of resistance to disease, the development of drug tolerance and psychological dependence after sustained use, and criminal prosecution stemming from injuries inflicted on others due to driving under the influence. Every year thousands of people die in alcohol related motor vehicle accidents. Impaired drivers are responsible for almost half of all traffic fatalities.

Driving Under the Influence

Kansas Law

In Kansas it is illegal for anyone to operate a vehicle under the influence of alcohol, drugs, or both alcohol and drugs, with a breath or blood alcohol content of .08 or more.
